TIGER TEAM

Commissioning Specialist

Company History

ISSAC E&C (ISSAC Engineering & Consulting Ltd.) was established to grow a major consulting company for Marine and Offshore sectors in Korea.

Based on this core value, we provide offshore/marine commissioning service and training service.

ISSAC E&C has been making efforts seriously to maintain and improve its position as a market leader in the new-build and offshore sectors.

So please give us your continuous support and pro-active advice as you have done.

Thank you.

Mission

We will create this value by consistently producing exceptional quality with timely performance. We will adhere to:

- Safety practices in the workplace
- Protection of the environment
- As a company and as individuals we will seek continuous improvement in the productivity and quality of our work.
